

### **Applying LipSense® and/or LinerSense®**

**LipSense®** products must be applied to clean, dry lips. **LipSense®** and **LinerSense®** need to be shaken horizontally prior to application.

**LipSense®** liquid lip color is applied by using a layering technique.

Follow the natural shape of your lips. Apply one even layer of color to the bottom lip, then one even layer of color to the top lip.

*(If your lips are dry, you may experience a slight tingling sensation. This sensation will cease upon the application of the Moisturizing Gloss, and will subside completely after a few days of using the product.)*

Let each layer dry completely before proceeding to the next layer. It is not recommended to apply more than three layers of color. Do not press your lips together until you apply the Moisturizing Gloss.

### **Applying LashSense™**

**LashSense™** is applied by lightly stroking lashes from the base of the lash to the tip. For thicker lashes, allow the first coat to dry before applying the next. The curved brush allows for easy application to those difficult to reach lashes in the corner of the eyes.

### **Applying EyeSense™**

**EyeSense™** should be shaken horizontally prior to use. Before applying, gently blow on the tapered brush that is covered with color for approximately 3-5 seconds. Apply **EyeSense™** starting at the outside corner of the eye. Apply with one continual stroke.

*(You may experience a tingling sensation if you get **EyeSense™** in your eye; simply rinse your eye with cool water if necessary)*

### **Applying BrowSense™**

**BrowSense™** needs to be shaken horizontally prior to application. The **BrowSense™** delivery system is unique and effective. One end of the applicator is a controllable, tapered hairbrush that is used to apply the color to the eyebrow with short, hair-length strokes. Once the color has been applied, take the brush end of the applicator and smooth away any excess color for even, natural, hair like coloration. If desired, repeat these steps until the desired color intensity is achieved.
